Program Management Professional (PgMP)® Certification Preparation Program

1+3 Steps – 24+24 hours
(PGM_CERT, VCT)

Step 1 (Course): 6 4-hour sessions, 24 h (24 PDUs)
Step 2-4: Exam preparation support (24h)

> Program Management is maturing as a standardized way of working.
> In consequence, the popularity and demand for the PgMP® certification is on the increase.
> In this Training Program you will get to learn the Program Management practices, principles and frameworks with real case studies, tools and templates.
> The goal is to develop your knowledge and self-confidence, to prepare for, and do well on the PgMP® certification exam.

AFTER THE PROGRAM YOU WILL

- Know more about Program Management
- Understand the structure and requirements of the PMI's PgMP® certification exam Version 4 and ECO.
- Recognize typical exam questions helping you to pick the best answer in each case
- Know how to prepare yourself in the best way to pass the certification exam
- Know specific techniques and exercises to develop your understanding of the many subjects and how they interact

TARGET GROUP

Experienced Project and Program Managers who intend to pass the PgMP® certification exam, and want to learn more about Program Management

DOCUMENTATION

- A manual with all the course material.
- Access to an exam simulator with some 500 questions and 2 mock-exams.
- Access to online video recordings post training completion.
- Access to a PgMP WhatsApp collaboration group managed by the instructor.
- Optional: The study book "PgMP Handbook" by Anand Vijayakumar

The Standard for Program Management, PMI, should be downloaded (for free) from the PMI Website as a PMI member.
