PRINCE2®
PRACTITIONER
6th Edition
(PRP)
(2 days, 16 hours)

PRINCE2® (PRojects IN Controlled Environments) is a project management methodology designed to ensure that projects meet their objectives, within constraints and deliver stated benefits.

The course includes PRINCE2® Practitioner exam.

The hands-on approach in the course means high pass rates, which are taken as part of the course and always included in the course fees.

You need to have achieved the PRINCE2® Foundation certification, the PMP® Certification or the IMPA® certification prior to the course.

COURSE OBJECTIVES

❖ Be a qualified PRINCE2® Practitioner (subject to passing exam)
❖ Comprehensively understand the PRINCE2® methodology, meaning being able to apply the principles, processes and themes in real and different projects in various environments
❖ Be confident in implementing PRINCE2® within their own organization

TRAINING METHODS

The course consists in a combination of theory and practice, and the PRINCE2® Practitioner exam.

TARGET GROUP

This PRINCE2® Practitioner training course is aimed at project staff that requires a formal higher qualification, in the project management, than the Prince2 Foundation.

PREREQUISITES

The participants must have achieved the PRINCE2® Foundation certification, the PMP® Certification or the IMPA® certification prior to the course.

SUBJECTS

❖ The course looks at applying the PRINCE2® methodology to real projects, and prepare delegates to sit the PRINCE2® Practitioner exam – including:
  ✓ Exam Guidelines
    • Time Management
    • Types of questions
    • Using the answer booklet
  ✓ The Manual
    • Marking up
    • Highlighting
    • Sample questions – finding the answers
    • Working through sample exam papers
❖ Several test exams
❖ The final exam
