

PROJECT MANAGERS

Frequently organizations find themselves facing the need to implement a change in the way they manage projects, in order to increase their reaction capacity, efficiency and effectiveness. Greenlight Project Management can provide professional project managers, specialized in three key categories, that will help you establish a successful Project Management and Project Portfolio Management.

PROJECT OFFICE MANAGERS

We help our customers to manage and establish a Project Management Office (PMO), in charge of:

- ❖ Improving the Project Portfolio Management and the Project Culture.
- ❖ Increasing their Project Managers' skills through mentoring and coaching.
- ❖ Developing and establishing project management methodologies.
- ❖ Recommending and customizing process management tools.

PROJECT MANAGERS

With our Project Managers service we adapt to the specific needs regarding time, scope and skills, required by your projects.

We are used to leading projects in a structured way, according to methodologies (PROPS), to guarantee that project goals are reached. We are professionals with a broad knowledge of different sectors and international markets.

SUPPORT TO PROJECTS

We fill the need of project support personnel with our experienced professionals acting as:

- ❖ Quality coordinators: to achieve better project performance and to guarantee that processes are used and continuously improved.
- ❖ Configuration managers: to ensure adequate management and visibility of the configuration of products produced by the project.
