For general information about the congress and to register please visit the congress homepage: <http://congresses.pmi.org/EMEA2010/>

About us

Greenlight Project Management, founded in 2003, is a leading international Management Consultant firm, focusing on Project Management and Project Portfolio Management. Our headquarters is located in Madrid (Spain) and we are operational worldwide with offices in various countries. Our mission is to help our clients towards success, improving their Project Culture with our [Total Solution](#).

What we offer

We are mainly active in the Telecommunications, Banking, Energy, Railway and Consulting sectors.

Similarly we have been able to extend our good practices within the Construction, Pharmaceuticals, Defense and Industry sectors.

The nature of our activities has led us to participate in very different types of projects, from small software development projects (5-10 people), up to big Turnkey projects for the deployment of entire telecommunications networks. All this in diverse environments including a variety of languages.

Working together with our customers, we help them identify the changes needed to improve their project performance. This is based on our [Total Solution](#) which combines our [Project Models](#), [Training and Development](#), [Project Managers](#) and [Consulting services](#). Our main advantage is the ability to integrate all the necessary areas of Project Management in one [Total Solution](#).
