

ADVANCED TRAINING PROGRAM FOR PROJECT MANAGERS (ADC) (Duration: from case to case) (One PDU/hour)

GOALS

- ❖ Build/expand competence in key knowledge areas
- ❖ Train the Project Managers to better know how to manage their Projects/Programs
- ❖ Learn more about the chosen subjects – which typically are state of the art and important to your company.
- ❖ Team building / networking between peers.
- ❖ Reward the best Project Managers with advanced competence development
- ❖ Improve Business Acumen
- ❖ Improve efficiency

The learning objects are defined for each training program in cooperation with the customer.

TRAINING METHODS

We apply a training method based on "learning by doing". This means optimizing the learning by combining the trainers' input with the participants experience and active participation.

A program is typically Blended, thus combining classroom training with virtual classes (video, e-learning and Webinars).

The course is aligned with the Project Management Institute (PMI)[®] standards.

GreenlightPM@GreenlightPM.com

*"Project Managers need to be innovative, creative professionals – not rigid, tactical technicians!"
"The best Project Managers are very strong business personnel!"*

To meet these demands, GreenlightPM offers an advanced training program for the most experienced Project Managers, with the overall goal to create more competence and improve efficiency.

The content is tailored to each program.

SUBJECTS

The content of each training program is chosen and agreed together with the customer, typically choosing subjects from this list:

- ❖ Business Acumen
- ❖ Project Financial Management
- ❖ Risk Management
- ❖ Program Management
- ❖ Project Portfolio management
- ❖ Agile Methods (SCRUM, Kanban etc)
- ❖ Leadership Skills – Coaching Skills
- ❖ Advanced use of tools
- ❖ Leading Change – by Projects

All areas include theory, documentation, examples and exercises. And there is an integrated case study.

TARGET GROUP

- ❖ Experienced and high performing Program Managers
