

INTERNATIONAL PROJECTS (PIN) (2 days, 16 hours, 16 PDUs)

International projects are more and more frequent in companies.

These projects require a special set of skills in order to be successful regarding time, cost and quality.

This includes the individual skills of stakeholders and project team members, as well as general skills in the affected organizational units.

In short, these projects require a common project culture, shared by everyone.

AFTER THE COURSE YOU WILL

- ❖ Have improved your human skills in managing international projects and programs.
- ❖ Know how to make the best use of a common project management model, the decision model and tools, in your international projects.
- ❖ Be able to document your project in a way that facilitates the management of international projects.

TARGET GROUP

- ❖ Project and Program Managers.
- ❖ Project Management Office (PMO) Managers and members.

TRAINING METHODS

- ❖ We apply a method called “learning by doing”. This means that the learning process will be optimized by combining the teacher’s input with your own experience and active participation.
- ❖ This course is aligned with APMBOK and the Project Management Institute (PMI)[®] standards.
