

Hybrid Project Management Using GPMM (HGPMM)

Classroom: 2 days, 16 hours, 16 PDUs

Virtual: 4 days, 4*4 hours, 16 PDUs

(* Distributed as : 10 Technical, 3 Leadership 3 Strategic PDU)

AFTER THE COURSE YOU WILL

- ❖ Know how to plan, control and manage a Hybrid project to ensure the best performance, thus making the best use of both agile methods and structured project management at the same time.
- ❖ Be able to use the GPMM Project Management Model in this situation and with these types of projects.

TARGET GROUP

Anyone working or involved in Projects, eg:

- ❖ Project and Program Managers
- ❖ SCRUM Masters
- ❖ Team leaders and Development teams
- ❖ Product Owners / Product Managers
- ❖ Project Sponsors and Functional Managers
- ❖ Portfolio and PMO Managers
- ❖ PMO Staff

PREREQUISITES

Recommended: At least fundamental knowledge and experience of structured or agile projects

TRAINING METHOD

We apply a training method based on “learning by doing”, optimizing your learning by combining the trainer’s input with your own experience and active participation. You will experience a course with a high energy level and lots of fun.

The participants will get copies of the GPMM 3.0 Project Edition, or Enterprise Edition if specifically requested.

The course can be customized.

Today’s business environment opens many opportunities but it is also unstable and uncertain.

This situation requires new ways of managing projects.

Now, the projects and programs must be fast, flexible, agile and at the same time structured to ensure the best project performance; deliver the most valuable scope, efficiently, on time, within budget and with the right quality.

In this course you will learn how to manage Hybrid projects, making the best use of agile methods in combination with structured project management.

A project model, such as GPMM, is a key to success and in the course you will explore how it can help you and your organization.

About GPMM®

GPMM 3.0 (Greenlight Project Management Model) is a general-purpose model/methodology specifically developed to cover structured, agile and hybrid project management. The model is a fundamental pillar in the Project Management 3.0 framework.

GPMM complies with all relevant project management standards eg. the PMI® standards, Prince2, BABOK, PMDPro2, APMBOK, ISO, the Agile Manifesto and SAFe.
