

# AGILE Project Management Course (APMC)

(1-2 days, 8-16 hours, 8-16 PDUs)  
Classroom (ILT) or Remote/Virtual (VCT)

## AFTER THE WORKSHOP YOU WILL

- ❖ Have a better understanding of agile project management.
- ❖ Understand how to work with two of the most typical agile methods – Scrum and Kanban.
- ❖ Have the knowledge to start to analyze and discuss on how to apply agile methods in your projects and organization.

## TRAINING METHOD

- ❖ We apply a training method based on “learning by doing”.
- ❖ This means optimizing your learning by combining the workshop leader’s input with your own experience and active participation.

## TARGET GROUP

- ❖ Project and Program Managers
- ❖ Core 3 Team members
- ❖ Functional Managers and Directors
- ❖ PMO Staff
- ❖ Operational Development Staff
- ❖ Change Agents

## PREREQUISITES

Fundamental Project Management know-how.

[GreenlightPM@GreenlightPM.com](mailto:GreenlightPM@GreenlightPM.com)

Today’s business environment requires a more agile and dynamic organization and new ways of managing projects.

Customers and the market require a more flexible and agile approach to defining requirements and scope of the projects.

This course will allow you to explore the Agile Methodologies and how they can be applied.

The basic principles and concepts of adaptive models (Agile / Lean) will be examined in relation to the so called plan driven (more traditional models).
