## TARGET GROUP

Anyone working or involved in Projects, eg:

- ❖ Project Managers
- ❖ Project Sponsors
- ❖ Functional Managers
- ❖ Program and Portfolio Managers
- ❖ Project Office (PMO) Managers

## TRAINING METHODS

We apply a training method based on "learning by doing", optimizing your learning by combining the trainer's input with your own experience and active participation.

You will experience a course with a high energy level and lots of fun.

A complete project will be run to get a hands-on feel for all aspects of project work.

This course can be adapted to customized GPMM-based Project Management Models developed for specific GreenlightPM customers.

In this course you will learn how to become a better Project Manager (PM).

Companies need PMs who know how to apply and make the best use of recognized best practices in the daily management of projects, to ensure that the projects meet their goals.

Using a common model is key to this goal. Here you will explore the GPMM Model and how it helps you create a common outlook and clarity in your project.

Apart from the actual Project Management, this course goes one step further, by also covering how to ensure a smooth and efficient collaboration between the project and the surrounding elements in the organization, such as Project Sponsorship, Governance, PMO and Functional Areas.
