

PMO - OUTSOURCED

As Project Management becomes more important, most organizations tend to establish PMOs (Project Management Offices).

We can establish and manage a PMO for your organization as an outsourcing service.

ALTERNATIVE SERVICES

A PMO as a service from GreenlightPM could serve different purposes acting like:

- ❖ A corporate function driving the whole organization towards a common and efficient Project Culture!
- ❖ A PMO for a part of the organization, ensuring that the project portfolio is successful.
- ❖ As a “Sub-PMO” with a limited responsibility.
- ❖ As a “Program Management Office”, supporting a specific program
- ❖ A combined PMO and SMO (Service Management Office).

All services are based on the GreenlightPM PMO Model, and can be delivered fully on-site, remote or as a mixed on-site and remote service

PMO 3.0 MODEL

We use our 7 area PMO Model to define the responsibilities of the PMO.

Each area covers some 15 activities, divided into 3 levels;

Basic, Intermediate and Advanced, which are implemented step by step, as the PMO matures.

OUR APPROACH

To successfully implement and manage a PMO we use the following approach to help our customers.

- ❖ Analysis of the challenges and opportunities facing the PMO
- ❖ Definition of the requirements the PMO should fulfill.
- ❖ Definition of a vision and a mission for the PMO
- ❖ Usage of the GPMM® as the Project Model in the projects, the programs, and to manage the portfolio.
- ❖ Definition of short and long term goals for the PMO
- ❖ Preparation of an implementation plan
- ❖ Implementation of the PMO
- ❖ Management of the PMO, either for:
 - ✓ an indefinite period
 - ✓ Or, with the purpose to hand it over to the customer, when and if it would make sense to in-source the PMO using proper resources. From that point we can continue to support the PMO, with project managers, mentoring, training, assessments, improvements etc.
