

PRODUCT OWNER ROLE (POR) (1 day, 8 hours, 8 PDUs)

Practical course that will provide you with the needed skills to perform the Product Owner role in the Agile Scrum projects. You will learn, among other things, to maximize the ROI, prioritize the backlog, the deliveries and the interaction with the team.

AFTER THE COURSE YOU WILL

- ❖ Have a better understanding of the inherent skills in the Product Owner role.
- ❖ Will get competence in the tools used by Product Owners as the Product Backlog.
- ❖ Improve your skills and abilities to manage and lead the strategic planning meetings of the teams.
- ❖ Know how and when to involve the main stakeholders.

TRAINING METHODS

- ❖ Practical course. The training method used is based on “learn by doing”. This means optimize the learning using the trainer knowledge plus your experience and your active participation.
- ❖ We spend time in the personal feedback during the exercises.
